**DIOGO HENRIQUE SILVESTRE MATOS CEBOLA**

BSc in ⟨Computer Science⟩

**Advisers:** Matthias Knorr
*Auxiliar Professor, NOVA University Lisbon*
João Leitão
*Auxiliar Professor, NOVA University Lisbon*
Henrique Domingos
*Associate Professor, NOVA University Lisbon*

MASTER IN COMPUTER SCIENCE

NOVA University Lisbon
***Draft:*** *December 20, 2021*

# Abstract

1. What is the problem?
2. Why is this problem interesting/challenging?
3. What is the proposed approach/solution?
4. What results (implications/consequences) from the solution?

**Keywords:** Keyword 1, Keyword 2, Keyword 3, Keyword 4

# Resumo

1. Qual é o problema?
2. Porque é que é um problema interessante/desafiante?
3. Qual é a proposta de abordagem/solução?
4. Quais são as consequências/resultados da solução proposta?

**Palavras-chave:** Palavra-chave 1, Palavra-chave 2, Palavra-chave 3, ...

# Contents

# Todo list

# 1

# Introduction

## 1.1 Context

1. Briefly contextualize the Semantic Web. Why are ontologies relevant? T[1]
2. State of adoption. How/where are ontologies being used? T[2]
3. Future expectations. How will the technology evolve? T[3]

1) *TODO:* Explain the motivation for the Semantic Web and use of ontologies.

2) *TODO:* Enumerate industry/investigation examples.

3) *TODO:* Mention cloud and external computing, general adoption growth...

## 1.2 Problem

1. How is the current state of ontology development/engineering? T[4]
2. Why remote computation is gaining adoption in the area, but what are current limitations/problems unresolved? T[5]
3. Why is there need for privacy in ontologies? T[6]

4) *TODO:* Explain tools and workflow used in ontology engineering.

5) *TODO:* Contrast the usefulness with the limitation/security problems of cloud/remote computing

6) *TODO:* Explain why some ontologies need privacy mechanisms. Define the mechanisms needed.

## 1.3 Proposed Solution

Briefly explain proposed solution. The scope of the solution, contributions, and how will it solve the problems mentioned in previous section.

## 1.4 Document Organization

Specify the document organization, per chapter.
